

TEACHING THE YOUNG IDEA

Your boy may not have exhibited any particular signs of genius but, if he is a normal youngster, he shows a healthy curiosity about things. He wants to know what is going on around him and what it means.

His teacher will tell you that his craving for knowledge is just as natural and healthy a sign as a good appetite. His brain gets as hungry for information as his body for food, and it is just as important that it should be satisfied.

Nothing you can give him will provide such a fund of interesting and varied information as a newspaper. A good newspaper is a potent stimulus to thought and development. It is the history of today, covering every field of human endeavor. You will find few teachers who do not read a newspaper. They know its value in keeping a mind alert and in tune with the times.

Give your family this important advantage. It means so much to young and inquiring minds.

"HABITUAL FOOD CONTAINS FAIR TOO LITTLE PROTEIN"

CALGARY, Sept. 13th.—Neither man nor animal selects health-giving foods by instinct, declared Dr. L. H. Newburgh, Professor of Clinical Investigation at the University of Michigan, speaking here last night at Central United Church in connection with the current campaign of the Canadian Medical Association to increase public knowledge of proper diet. Dr. Newburgh, a leading United States authority, asserted that chemical research had proven that instinct and appetite alone could not be trusted to tell people what they should eat.

The ill-health of mountaineers of the southern United States offers wholesale evidence of the effect of inadequate diet, said Dr. Newburgh.

"The habitual food of large groups of people contains far too little protein," he stated. "Thus, in the south central portion of the United States, especially in the mountainous districts the food consists chiefly of corn, molasses, and salt pork. The natives are thin, pale, haggard, devoid of ambition and lacking in strength. It is characteristic that they accept their debility as a matter of course and evince no interest in overcoming it. Even though they are suffering from a protein deficiency, instinct does not prompt them to seek out protein-rich foods."

A child receives too little calcium for the proper development of bones and teeth unless it drinks four glasses of milk daily or takes the equivalent. In the form of a pint of milk, four ounces of cream, an ounce of cheese and a serving of some leafy vegetable, he contended.

Since it would take 22 pounds of beef or eight pounds of bread to provide the calcium content of one quart of milk, Dr. Newburgh pointed out that it would be impossible to eat enough meat, eggs and white bread to fill the calcium needs of a growing child.

"Our forebears were wiser than they knew when they cherished the cow, for she patiently and with never a complaint extracts the calcium from high quantities of grass and delivers it to us in so small a package that we imbibe it with ease and pleasure," he commented, adding that physicians could prescribe calcium in medicinal form for the occasional child with whom milk does not agree.

He emphasized, too, the need for vitamins. These, he said, were lacking in the diet of the average American big city dweller, causing "deficiency" diseases. Thus in addition to milk, eggs and meat, he recommended that daily diet include one pound of green leafy vegetables and fruit, raw or cooked.

Chinook was a lively town Sunday night. Apparently the out-of-town boys don't seem to realize they are robbing the cradle.

Looks kind of fishy. The Cereal young folks do not seem to take interest in the Chinook dances after supper.

We notice that Mr. A. H. Spurgeon, proprietor of the White Lunch in Trochu, is a town visitor for a few days.

A. T. A. MEETING

The Cereal Agricultural Improvement Association will hold a special meeting in the Cereal Community Hall, on Wednesday evening, Oct. 12th at 2:00 p. m.

Speakers
C. D. Lane, Chairman Neutral Hills Livestock Board
A. Newman, Dominion Livestock Fieldman.

J. L. Eaglesham, Supervisor A. I. A's,
K. H. Walker, Agricultural Fieldman.

Matters pertaining to Livestock Improvement and marketing, Water—Development, and other matters pertaining to A. I. A. activities will be discussed.

Every A. I. A. member should be at this meeting.

Every farmer should be an A. I. A. member:

H. J. Westphal
Sec'y, Cereal A. I. A.

Local NEWS

You'll have to excuse our missed appearance last week. Really, everyone, was so bad we didn't know who to criticize as not to disappoint anyone. However, three articles cannot be missed.

Part of our local Orchestra was patronizing the R. B. L. last week. Luckily the bus runs on Sunday or maybe he'd have had to spend another day at Oyen. Would he have sorry though?

People came all the way from Calgary but found the little house at the end of College avenue empty. Tough luck—say.

A certain popular young man is all smiles these days. More girls have come to town to fall victim to his charms.

Don't ever trust a man! Bold words perhaps but it's true. Did you see how broken hearted a young man was at the dance last Friday. Not much—eh? Oh Bill

Why is our Phone operator so blue these days? Don't worry—he'll be back again. In the meantime we suppose the Post Office is in active service.

Mrs. Myhre of Calgary is in town for a few days

Combining, which was halted last Monday by the rain, has not yet been resumed, and may not be for some time as there was another heavy rain storm on Tuesday of this week. Stooks not yet threshed are also too wet to be threshed.

Mr. Harry Austen and Miss Phyllis Lowe of Oyen, were visitors at the Todd home Sunday.

Mr. F. Morrell attended the Teachers' Convention which was held at Oyen last Friday and Saturday.

Mr. Charvk M. A. attended the Teachers' Convention held at Oyen last week.

Mr. A. V. Youell of Alsask, was a Chinook visitor Monday.

Mr. C. W. Rideout, Chinook Postmaster, who had a six month's leave of absence returned from Sardis, B. C. on Wednesday morning.

Mr. R. Thompson who has been in Vancouver for some time, returned Monday.

Mr. and Mrs. Pfeiffer and family of Rosetown, spent Thanksgiving with the former's father and brother.

Mr. L. Youell of Calgary was a town visitor this week.

Mrs. M. C. Nicholson attended the Press Convention which was held at the Palliser Hotel, Calgary, last week.

Mrs. Bell, teacher of the Langford school visited with friends at Hanna, over the week end.

BIG BEN

The PERFECT Chewing Tobacco

More Health In Bread

The fact that the hitherto discarded embryo of the wheat kernel contains enormous nutritive value might well be used to advantage in promoting the more extensive use of the major bread cereal in this country, provided the millers can be persuaded to reform their manufacturing methods to ensure that the full value of the grain is passed on to the consuming public.

By eliminating the embryo from the milled product millers have been able to produce a flour which yields a presumably very fine white loaf, extremely attractive in appearance, and therefore readily saleable among the public.

Unfortunately, however, the desire to present to the public a white loaf of seeming beauty has resulted in the sacrifice of some of the wheat's most healthful ingredients and substances essential to the support of a well balanced diet.

When one considers the substantial percentage of the nation's bulk food formed by bread the enormous loss to the consumer represented in the rejection of its most nutritive ingredients is more than unfortunate. It might more properly be termed a calamity.

A Stimulant To Consumption

Doctors and dietitians have known of the health value of whole wheat flour for some considerable time and almost daily one reads of the advocacy by prominent members of the medical profession and medical writers of the use of whole wheat bread as a health measure and as a corrective for certain forms of indigestion and weakening teeth.

It is only comparatively recently, however, that the full extent of the worth of whole wheat bread as a builder of a sound human frame has been determined by scientific and analytical processes as well as by the results of practical experimentation on the human constitution. These scientific discoveries show that the embryo, or germ, of the wheat kernel is rich in vitamins A, B, E and G, all of them of great value in building up the human body and all playing their part in preserving it in a healthful condition; yet these valuable constituents, under present methods of manufacturing flour are treated as offal and thrown into the discard.

That the consuming public is not yet fully awakened to the loss it is sustaining as a result of existing milling practices is quite evident; otherwise there would be an insistent demand for bread made from whole wheat flour. When consumers recognize the value in terms of health represented in bread baked from flour containing the entire germ, no doubt the millers will accede to public requisition without raising any objection, and the knowledge that the bread they then get is doing much to promote their health should stimulate the public to increase its consumption of bread.

A Worthwhile Study

Commenting upon these discoveries the Western Retailer in an article in its September issue printed some remarks well worthy of study when it said:

"It is high time that the Canadian Government, the milling interests and bakers joined together, to give the Canadian public the real facts about the food value of wheat. Especially is this true in view of the fact that every advance in knowledge that has been made by science in the last thirty years has tended to show that one of the richest sources of needful vitamins (which are now becoming better understood) is the embryo of the wheat berry.

"The first baker to show the public a loaf of bread in which the full value of the embryo has been retained should receive the grateful thanks of the wheat farmer, the grain interests and every public servant whose interest is maintaining public health."

Education Needed

Those who are fortunate enough to be able to get bread baked from genuine whole wheat flour are well aware that the loaf thus produced is darker in appearance than the bread produced by "sterilized" white flour and the baker who produces such a loaf is not likely to get all the thanks he deserves, unless the public is prepared to accept his product.

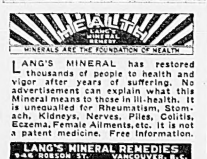

In other words what is required is a program of public education on the virtues of whole wheat bread as the first step towards creating the necessary demand. Should the governments decide upon such a program, there is little doubt that they would receive the hearty support of the medical profession and of all those who are now aware of the health value of the wheat germ.

The economic importance of such a program should not be overlooked either, for a realization of the value of bread to health would naturally be followed by an increased consumption and bread would, in actual fact, again become the staff of life—and health.

A Conductor's Privilege

The question of whether a conductor can jump aboard his moving bus has been settled in magistrate's court at Georgetown, British Guiana. Conductor Albert Manowar was charged under a traffic ordinance with boarding the moving vehicle. The magistrate acquitted him, ruling the conductor had the "ruling authority" to do so.

Amsterdam has a river called "Y," China has a city called "U," and Sweden has a town called "A."

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

LAND'S MINERAL has restored thousands of people to health and vigor after years of suffering. No advertisement can explain what this Mineral means to the health of the world. It is unequalled for Rheumatism, Stomach, Kidney, Nerves, Piles, Colic, Eczema, Female Ailments, etc. It is not a patent medicine. Free information.

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

Has Nice Little Job

Charles Smith, head keeper of the San Diego Zoo, has a neat little job on his hands—driving two giraffes from New York to California in a truck. Giraffes are regarded as the hardest of all animals to transport, and this is the first time a trans-continental shipment will be tried by truck. The giraffes are coming in from Africa on a freighter.

Trench Revealed Coal

One Leeds resident reaped a neat little profit from England's mid-winter war scare. The last five feet of a nine-foot trench Henry Varley dug to shelter his family from air raids turned out to coal. He shovelled out two tons and there was no sign the seam was near exhaustion.

A crow with pure white wings has just been seen in Scotland.

There are 200 distinct bones in the human body. 2276

Collective Security

Justice In The End Is Sure To Prevail

The phrase "collective security" has come to have a bitter taste in men's mouths. Yet in the long run there is no choice between collective security and ruin. In the long run the lives and property of peaceable, non-offending men and women of peaceable, non-offending nations will be made safe or civilization will die. And it will not die. It is a far tougher organism than those who assault it and those who betray it are willing to believe. It has come out of pain and sweat and sacrifice. It has come out of the minds and hearts of men and women turning away from ease and softness to do hard tasks. It has come out of hopes and dreams and visions. It has been defended on battlefields and on sinking ships and in the narrow room of poverty. Those who have built it, those who now sustain it—the humble and obscure as well as the powerful—are slow to anger, but, like the milk of God, when once aroused they grind exceeding small. They can be driven back and defeated for a day, a week, a year, but not forever. There is a justice in the world, cherished in men's hearts, and let there be no doubt of it—in the end it will prevail.—N.Y. Times.

Cats Live In Luxury

Nothing Too Good For Six Pets Of English Woman

In a nine-roomed house overlooking the sea at Barton, ten miles from Bournemouth, England, six cats live in the lap of luxury.

Each has its own room, bed and dishes, and a housekeeper is employed to look after their every want. Four times a week a taxi from Bournemouth brings their food—the best steak, fish, rabbits, milk and cream.

The cats are the property of Mrs. Agnes Burrell of Bournemouth. Originally she had only one cat, but it so captivated Mrs. Burrell, a childless widow, that she became the extraordinary lover of cats that she is today. They are her main interest in life and nothing is too good for them.

More Modern Setting

Horses Of R.C.M.P. Giving Place To Cars And Planes

That picture of the Royal Canadian Mounted Police officer, astride his faithful steed, scanning the prairie stretches with hand upraised to hat brim against the rays of the setting sun, favorite of artists, magazine readers and movie fans is giving place in real life to more modern settings. Soon the northern constable, on patrol, will be peering from the window of a speeding aeroplane. And, according to recent announcements, prairie detachments will be listening for the voice of the wireless "calling all cars."—Edmonton Journal.

The banyan tree of the East Indies sends down new roots from its branches. These become auxiliary trunks and allow the tree to grow over a large area of ground.

There are more than 25,000 taxis in New York City.

HOW YOU CAN ATTRACT MEN

Of course, you have no men friends if you're not yourself becoming droll, cross, and nervous. Men like lively, peppy girls—girls with plenty of energy to go places and enjoy life. Don't let care and romance pass you by. Help build up your pep and you, too, should have gay friends.

Here's good advice: Start taking time-proven, reliable Lydia E. Pinkham's Vegetable Compound and note the difference. This famous Compound, made especially for women from wholesome herbs and roots, helps Nature tone up your system and thus soothes jumpy nerves and gives you more pep to really enjoy life.

Fear out this notice NOW as a reminder to get a bottle of Lydia E. Pinkham's Vegetable Compound TO-DAY without fail.

For over 60 years one woman has told another how to go "smiling" and free from female troubles and disorders with Pinkham's Compound. Let it help YOU.

GRIPPED BY MISERY OF A SORE THROAT! (DUE TO A COLD)

Do this NOW—go straight to it with direct treatment. Melt a small lump of VapoRub on the tongue. Feel the comfortas VapoRub rubs down—bathing the irritated membranes... bring blessed relief where you want it—where you want it.

Then TONIGHT—massage throat, chest and back with VapoRub. Its poultice-vapor action loosens phlegm, clears air-passages—eases coughing and soothes throat congestion.

This 2-STEP METHOD is one of the proved ways of using VapoRub that have made it a family standby by 10 million more.

VICKS VAPORUB

Compulsory In France

Children Barred From Schools Unless Immunized Against Diphtheria

In France immunization against diphtheria has for some time been obligatory for soldiers. During the present year the provision has been extended to include all school children. All children are required to be immunized against diphtheria in the first or second year of life. No child can be admitted to school without a certificate showing that this law has been complied with. All school children up to the age of 14 years, who have not been previously protected against diphtheria must submit to immunization as soon as possible after notice has been given in the official gazette. This announcement appeared on June 3rd. The Toxoid administrations are free. It is said that any necessary outlay will be amply compensated by a marked reduction in the present mortality from diphtheria of 2,000 deaths and of over 20,000 cases annually.

In Canada, we attempt to gain the same results by education of the public as to the value of the protection afforded by immunization against diphtheria. The results have been gratifying. While communities where the little children have received doses of Toxoid have for years remained immune to diphtheria. The work is rapidly extending year by year. Soon, through the effect of voluntary immunization Canada will be rid of this dangerous malady.

All children have Toxoid as soon after they are six months of age as possible. The great mortality for diphtheria has been in children under the age of five, although children of all ages contract the disease. Do not neglect the use of Toxoid—your health officer or your family doctor will arrange it for you.

Timely Information

Trans-Canada Air Lines Gives Regulations For Baggage

According to Trans-Canada Air Lines, this is what the well-dressed woman can carry with her on a flying "trip without exceeding the excessive baggage regulations: "Suit case 11½ inches by 16½ inches by nine inches; two street dresses; 12 handkerchiefs; jacket; one pair dinner sandals; evening gown and bag; four pair gloves; six pair hose; lingerie; lightweight dressing gown; one pair mules; nightgown; jewelry case; sewing kit, rubberized toilet kit with cosmetics in lightweight containers." All this, according to T.C.A., officials who claim to be versed in such matters, weighs three pounds less than the maximum 35 pounds of baggage allowed each passenger without charge. Furthermore, they state a woman can exist for six weeks with such an outfit. Men, they complain, are forever carrying too much luggage and are always a problem to air line baggage masters.

Where Fear Reigns

The Buffalo Courier-Express says if the German people appeared apathetic to the impending shadow of war, it might be due to the difficulties of expressing one's fears openly in a country where there are suspiciously broken up as a crowd, police attend every social get-together and even the woods have diaphanous cars.

No Tickets Fixed

Policeman Donald Galbreath of Portland, Oregon, has a fine time these days just laughing at friends who want him to "fix" their traffic tags. Galbreath recently paid \$13 for traffic tags and towing charges on his automobile after it was towed to the police garage because of illegal parking.

A man's skull contains 20 bones, whereas a codfish's skull has 63.

Rewarded For Kindness

Ballet Dancer And Hospital Attendant Receive Large Fortune

It's a story strange as fiction with a typical surprise ending—this true-life tale of how a former assistant theatre manager and a ballet dancer were kind to an eccentric old woman and reaped an estimated \$1,000,000 reward.

The woman was 70-year-old Mrs. Edna Mosses Allin Elliot, a quaint haunter of film houses who became known as "New York's Champion Movie Fan".

A feminine hermit, she died friendless and alone in her three-story brownstone house in West 88th street.

Her will disclosed she had left securities and \$80,000 in jewels to Rosalie Spatcher, a ballet dancer, and the residue to William Reilly, former assistant manager of the Roxy Theatre. They had "helped to make the recent years of my life more pleasant," Mrs. Elliott wrote in her will.

Reilly, whose sudden wealth lifted him from a \$52-a-month hospital attendant's post, said attorneys told him the estate was valued at \$1,000,000.

He said when he first met Mrs. Elliott in 1927 he thought she was poor—she wore old-fashioned dresses with leg o'mutton sleeves—and arranged for her to have a front row seat every Thursday when the theatre changed its program. Afterwards he would discuss the show with her briefly.

The theatre closed temporarily in 1932 and Reilly lost his job. He never saw Mrs. Elliott again.

She then began attending Radio City Music Hall and during rehearsals Miss Spatcher often walked over to chat with the lonely old woman in the front row seat. She never knew Mrs. Elliott's identity or saw her outside the theatre.

It was some time before Reilly learned of his fortune. He said he had dodged Mrs. Elliott's lawyers for several days—thinking they were trying to serve him with a summons.

SELECTED RECIPES

CALUMET SUGAR COOKIES

2½ cups sifted flour
1½ teaspoons Calumet Baking Powder
1 teaspoon salt
1½ teaspoon nutmeg
1½ teaspoon grated lemon rind
½ cup butter or other shortening
1 cup sugar
2 eggs, well beaten
1 tablespoon rich milk or cream
Sift flour once, measure, add baking powder, salt, and nutmeg, and sift again. Add lemon rind to butter and cream thoroughly. Add sugar gradually, and cream together well. Add eggs and beat thoroughly. Then add flour gradually, mixing well. Chill until firm enough to roll. Roll ½ inch thick on slightly floured surface. Cut with floured 3-inch cutter and sprinkle with sugar. Bake on ungreased baking sheet in hot oven (moderate F.) 10 minutes, or until done. Makes 2½ dozen cookies. Cookies may be cut in fancy shapes and frosted or decorated with colored candies, sugar, citron, nuts, and candied cherries. They are especially suitable for children's parties or for holiday entertaining.

PUMPKIN PIE

2 cups cooked pumpkin
½ cup Evaporated Golden or White Corn Syrup
1 cup white sugar
2 eggs
1 teaspoon St. Lawrence or Durham Corn Starch
1½ teaspoon cinnamon
1½ teaspoon ginger
1½ teaspoon nutmeg
1½ teaspoon salt
1½ cups milk
1 teaspoon St. Lawrence or Durham Corn Starch
Beat eggs light and add to pumpkin already mixed with syrup, sugar and spices. Blend corn starch with milk and add. Mix all thoroughly and pour into deep pie plate lined with good pastry. Bake in hot oven 45 degrees F. first 10 minutes, then reduce heat until filling set, in all about 30-35 minutes. Serve with whipped cream.

Considered World Record

Way In Which Britain Has Eliminated Slum Houses

The Municipal Journal, London, says nearly a thousand persons are being moved every day in Great Britain from slum houses to new and decent dwellings.

Today one-third of the population are living in post-war houses. Since the end of the war over three and a half million new houses have been provided in England and Wales, and of these more than a million have been built by local authorities.

What other country can show such a record in this sphere of social improvement?

A pair of moose antlers in the Chicago Field Museum measure 77½ inches across and are said to be the world's largest.

A giraffe has only seven vertebrae—one-half as many as a hummingbird.

EASE PAIN

of Rheumatism Neuritis Neuralgia Quickly

SIMPLY GET "ASPIRIN"—FOLLOW EASY DIRECTIONS BELOW

1. Take 2 "Aspirin" 2. You should feel relief with a full relief very quickly. If ease of water the pain is unusually moment you feel severe, repeat according to directions or consult your doctor.

To relieve pain of rheumatism or neuritis quickly, try the "Aspirin" way—shown above.

People everywhere say results are remarkable. "Aspirin" Tablets are economical, which makes the use of expensive "pain remedies" unnecessary. If this way fails, see your doctor. He will find the cause and correct it. While there, ask him about taking "Aspirin" to relieve these pains. We believe he will tell you there is no more effective, more dependable way normal persons may use.

Cando School spent the
Thanksgiving vacation at her
home in Calgary.

Chinook Couple Celebrates 25th Birthday

Mr. and Mrs. N. Schmidt,
who reside four miles West of
town, celebrated the 25th
anniversary of their wedding,
on Sunday, Oct. 9th.

Several carloads of relatives
from Gem, Alta., were guests
of Mr. and Mrs. Schmidt for
the occasion. Many others
were expected from Sask. and
Manitoba, but were unable to
attend, owing to the condition
of the roads.

The dinner table was beautifully
decorated with pink and
blue asters, and the sumptuous
meal provided was thoroughly
enjoyed by twenty-six
guests and the ten members of
the family who gathered
around the festive board.

Mrs. Schmidt was the recipient
of many lovely pieces of
silver.
Miss Lena Schmidt who has

been visiting her parents for
the past two months remained
over for the celebration
returning to Calgary on Tuesday.
Chinook friends join in
wishing Mr. and Mrs. Schmidt
Many Happy returns of the
Day.

First reeve of the municipal
district of Cereal, William Jas.
Ada, of Sylvan Lake, died on
Friday, September 30, in Red
Deer hospital, following a
short illness.

Active in public service
during his 27 years' residence
on the Prairies, Mr. Ada was
one of the founders of the
Oyen Agricultural Society and
the Oyen Fairs Association.
Born in Maidenhead, England,
he came to Canada in 1906,
fired land in Oyen district in
1910 and moved to Sylvan
Lake in October, 1937.

He is survived by his wife,
two children, Arthur, James
two sisters at Sylvan Lake.
